PURE Furniture Our Brand

Pure Furniture was established in Romania, Eastern Europe, in 2002 by three furniture enthusiasts.

The company specialises in manufacturing reproductions and updated classics in an authentic and vintage style, from sketch to prototype to finished product.

Pure Furniture is well known for its unmistakably unique and authentic look and feel. Every item in the collection is made with the finest materials, such as genuine buffalo leather from Italy, solid rustical and reclaimed oak (which has been ageing for hundreds of years), and carefully selected fabrics.

These characteristic materials, combined with ancient skills of finishing (handpolishing, waxing, scraping and sanding by craftsmen) make every single piece of furniture a timeless and authentic piece of art.

Passion, pride, true craftsmanship, high-quality materials and purity is what drives us.

Story driven furniture.

Meet our Dolomite Collection:

These urban essentials have been especially developed to meet the wishes of the young professional:

Slick design, high quality upholstery, and - above all - affordability.

Even though we are offering these gems at very competitive rates, we have not given in on our standard quality levels:

All items are upholstered in our hand dyed, hand stitched full grain buffalo leather. ^{*1}

We haven't even told you the best part of our Dolomite deal yet:

It comes with a progressive discount! ^{*2}

The more you order, the better your price will be.

Your total discount, when ordering 100 pieces or more, will be over **35%** compared to our standard trade price!

Please contact us for more info or check our price list.

^{*1} All items are available in one of our 21 beautiful leather colors, with a matt or gloss finish. All frames are finished as seen in the pictures.

^{*2} All prices shown are Exworks Satu Mare, Romania.

A photograph of three bar stools arranged in a row. The stools have cylindrical, padded seats. The outermost stools have bright yellow seats, while the middle one has a black seat. All seats are made of a smooth, leather-like material with visible stitching. The stools are supported by dark wooden frames with four legs each. The background is a dark, textured wall, and a window with a grid pattern is visible in the upper left. The lighting is soft, highlighting the texture of the seats.

Pure Leather

The high-quality and durable leather we use for our furniture originates from the water buffalo. Their versatile skin pushes our material expertise to the next level when creating one-of-a-kind furniture with hand-painted details. Their rural characteristics bring a lively appearance to our products.

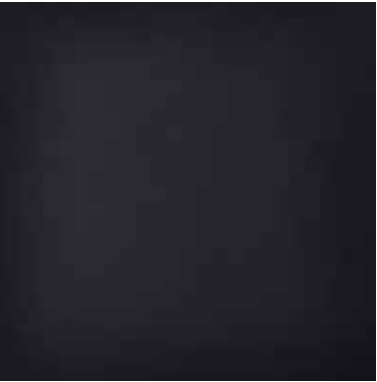

Our upholstered leather collection is well known for its unmistakably unique and authentic look and feel. Every item in this collection is made from carefully selected genuine buffalo leather and coloured by hand.

This full grain leather, with its worn, distressed appearance and natural markings, (such as: healed scars, scratches, neck and belly wrinkles), is ideally suited fort our leather upholstered collection.

The authentic quality is created by many different treatments, such as sanding, hand polishing and waxing, just as it was done in the early days by true craftsmen.

Our unique, hand-coloured leather is available in 20 different colours, with semi-gloss and matt finishes.

Sierra Leather

Sierra leather is our newest selection of exotic water buffalo leather and is a premium choice. The hand-picked colours have been chromium-tanned, lightly tanned with vegetable ingredients, then dyed in a barrel and corrected.

The leather is polished by hand in the final stage, which creates an open and fibrous structure. Together with scratches, horn bites and the likes, this creates a product which has a lovely natural and well-worn appearance.

Forming a gorgeous leather collection full of character, the 4 selected colours fit perfectly with our upholstered furniture.

PURE Furniture has selected a rich, luxurious and glamorous velvet which blends easily into our PURE Furniture’s upholstered collection. Our nuanced velvet colours with their durable characteristics, deep accent shades and sophisticated neutrals, are developed by a master weaver from Belgium.

Leg & Frame finishings

Metal and Wooden Legs

Steel stands as one of the most commonly used metals in the world across industries. New developments changed the nature of steel and allowed producers to create specialized items. The robust metal can easily be combined with warm materials like wood, using soft finishing techniques for a vigorous finishing touch. The hands of our craftsmen incorporate different types of steel and metal in the products we make.

Seven different colours are available for the metal chair legs, please advise the text on the left page to check which colour is available on which frame.

Wood

Pure Furniture’s Wood collection is well known for its carefully selected reclaimed and rustical oak, with unique colour shadings and robust, vivid characteristics.

Using ancient techniques and skills of finishing by craftsmen, such as scraping and distressing, our Rustical Oak is transformed into a timeless and authentic piece of art.

If you prefer a smoother surface, our Oak BC collection could be more suitable. This is in fact the 2nd layer of Reclaimed oak, with less cracks and colour shadings.

Both solid oak types can be finished in all available colours with Silverback grey as an acceptance on the rule.

These are our finishings for the wooden tables.

- 1. We are proud to have created the beautiful Pebble Grey colour. However, because it is very complex and time consuming to make, an additional percentage will be charged on top of the original item price.
- 2. Silverback can only be achieved on Oak BC. The finish is achieved by a carefully monitored process, where certain chemicals in the wood react with special blend of stains. As a result, every item with this finish will be a unique piece of art.
